## Met Pet printing:

Printing has become a robust multi-channel marketing tool when blended with technology uses metalized polyester films coated with a thin layer of film. The biggest advantage of Met Pet printing is it will not fade over the time. Moreover, it offers unique packaging, 3D effect with embossing, instantaneous drying time with UV light exposure, strong adhesiveness after lamination, superior tensile strength and chemical resistance.

We offer extensive service when it comes to customized met pet lamination and printing.
